

## Restrict access settings

- **Activity completion** - require students to complete/view another activity/resource in order to access/view the activity/resource
- **Date** - allow students' access/viewing of the activity/resource from/until a date and time
- **Grade** - require students to meet specific grade condition(s) of the entire course or another graded activity (e.g. Assignment, Quiz) to access/view the activity/resource
- **Group** - only students of the selected group can access/view the activity/resource
- **Grouping** - only students of the selected grouping can access/view the activity/resource
- **Restriction set** - restrict students' access/viewing of the activity/resource by several criteria that involves the use of "All" or "Any" conditions

### Note:

#### Hide / show the restrict access condition(s)

- 1) If you press  [Hide] of a restrict access condition, the students who do not meet that condition will not see the activity/resource's link in course main page.
- 2) If you press  [Show] of a restrict access condition, the students who do not meet that condition will see the activity/resource's link in course main page, but the link will be in grey colour with information of the condition.

Student must match the following
